

Sustainability Questionnaire:

Provided by the **Samohi Solar Alliance**

Waste: Recycling

Recycling Baseline-

-Is there a working school wide policy for the collection/disposal of recyclables? If so, explain the plan details...

-Are there any motives for students to recycle? Is recycling promoted at school?

Analysis of Recycling Situation-

-Are there recycling bins in each classroom, the cafeteria, the outdoors, and/or any other populated region on campus? Please specify where there are the most amounts of recycle bins and least...

-Are the recycling bins used frequently, occasionally, or rarely by students, teachers, and/or staff?

-Are recycling bins in accessible locations that are visible to the people who use them? If so, where are they generally most accessible?

-Whose responsibility is it to take out the filled recycle bins? Is there any sort of consistent assignment to who takes this role?

-Does the janitorial staff of the facility understand how to deal with recyclables? If so, what are their general procedures?

Please feel free to add any information that you feel is vital to the creation of a district wide recycling program...
